1、 Product identification and traceability information

Product Name: Baby Anti fall Pillow Model/Item Number: BBZT-047 Suitable Age: 1 year old+

Main Material: 100% polyester fiber (excluding accessories) Product Weight: 130g-200g

Production location: 4th floor, Building 2, No. 69 Hope Road, Xiaoshun Town, Jindong District, Jinhua City, Zhejiang Province, China. Manufacturer Name: Jinhua Bubi Children's Products Co., Ltd. Manufacturer

Address: 4th Floor, Building 2, No. 69 Hope Road, Xiaoshun Town, Jindong District, Jinhua City, Zhejiang Province, China

2、 Product Introduction

This product is a baby protective equipment designed specifically for babies. Wearing it on the baby's back, when the baby tilts back, the cushion pillow can effectively cushion the impact force on the head and reduce collision injuries. ⚠ This product only serves as a buffer protection and cannot completely prevent collision injuries. Please ensure adult supervision throughout the entire process. 3.Installation/usage instructions:

1. Usage: Place the anti fall pillow on the baby's back, place the shoulder straps on the baby's shoulders, and fasten the chest safety buckle; Adjust the length of the ribbon to ensure appropriate tightness, without slipping or compressing the baby's chest.
2. Usage inspection: After use, check that the buckle is secure, the webbing is not twisted, and the anti fall pad is stably attached to the baby's back and shoulders.
3. Usage environment: limited to indoor flat ground use only; Prohibited from use on stairs, steps, bed edges, high places, slippery floors, and outdoor ramps
4. Target audience: Suitable for ages 1 and above.

3、 Safety Warning (Key)

1. ⚠ Important reminder! This product is an auxiliary cushioning product and cannot replace adult care! During the baby's activity period, there must be close supervision by an adult.
2. Please use under adult supervision. 3. Please check if the product is intact before use. If there is any damage, do not use it
- 4.Please use only according to the product design purpose to avoid misuse and safety risks. 5. Avoid using the product for unexpected purposes or in inappropriate environments.
6. Keep away from sources of fire and high temperatures to prevent the fabric from melting and burning. It is prohibited to modify the product structure. Please do not sew, add ropes or pendants by yourself to prevent entanglement hazards

5、 Cleaning, maintenance, and storage

Cleaning instructions; Cleaning: It is recommended to wash gently by hand; Machine washable in gentle mode. Use neutral detergent for infants and young children. Do not bleach or bleach with chlorine. Drying: light after washing

Squeeze out moisture and do not twist or twist forcefully; Lay flat in a cool and ventilated place and dry in the shade. Do not expose to sunlight for a long time to prevent the fabric from aging and fading. 柳 Attention: Must

After completely drying, use it for babies to prevent internal moisture from breeding mold. Storage requirements; Store in a cool and dry place; Avoid long-term direct sunlight and humid environments Environment; Keep away from corrosive substances and open flames. Long term improper storage can cause fabric aging, decreased elasticity, and reduced protective effectiveness.

- 6、 Disposal of waste After the product is scrapped, please dispose of it according to local garbage classification regulations; Please do not dispose of it casually.

7、 Please keep this manual properly for future reference
